

# ADDITIONAL RESOURCES

## CONNECT WITH US!

Visit the California Science Center virtually or in person to explore this standard and extend the activity with related content.

- **Watch a free video:** Join our educators to discover different enclosures in the World of Life Discovery Room and the Ecosystems gallery and learn how our keepers provide all the things necessary for plant and animal survival in different environments.
- **Reserve a live interactive experience:** Invite educators from the California Science Center to your virtual classroom to read and complete a storybook while learning more about what living things need from their environments.
- **Visit us in-person:** Check out the dive show in the Kelp Forest to observe California Science Center keepers taking care of our aquatic animals.

## EXTENSION

Challenge students to design and draw a human-made environment for an animal of their choice. Students can imagine or research what the animal they chose needs to survive and include it in their design.

Share your students' experiences with the game on Social Media for a chance to be featured!
